

Dear Friends,

Seats are still open for Back2Work participants and mentors this fall!

Back2Work is a St. Vincent de Paul Society of Milwaukee program designed to help people get job ready, to provide training in a skilled trade profession and to assist in job placement. Program participants are supported by trained volunteer mentors who offer encouragement during this time of life and career development.

The program was originally set to begin in March and has been delayed due to the pandemic. Due to these unexpected circumstances, there are openings for additional program participants, as well as volunteer mentors. The next session will begin this fall. During this time of job insecurity, Back2Work is a vital resource to help someone receive training and find a job!

We're reaching out because we need your help to refer Neighbors in Need who may be interested in the program, as well as serve as mentors.

If you or someone you know would like to serve as a mentor, or knows of a Neighbor in Need to refer, please email council@svdpmilw.org or call (414) 462-7837(ext. 102) and we will follow up with them.

Thank you for helping us get the word out about our Back2Work Program!
